

Meeting

Passing stationary hazard with approaching vehicles

Parked vehicle on one side

- Check mirrors
- Assess priority
- Plan early for position & speed

- Can maintain safety line - 1M from parked vehicle

 - Maintain speed

- Unable to maintain safety line – but enough room to get past

 - Slow down

 - “Reduce the Gap – Reduce the Speed”

 - More time to react to: Pedestrians, Car doors

- Not enough room to safely pass parked vehicle

 - Slow down (sometimes can speed up)

 - Adjust speed to avoid both vehicles meeting

Parked vehicles on both sides

- No one has priority

 - Adjust speed to avoid both vehicles meeting

 - Assess speed & position of other vehicle

 - Proceed with caution

- Can be advantageous to give way
