

Traffic Lights

1. List the sequence of normal traffic lights.
2. What does 'red and amber' mean?
3. Why is it important to identify traffic lights early?
4. Where should you stop at lights that have an advanced stop line for cyclists?
5. When turning right, where should you stop if the lights are green but you are prevented from turning by oncoming traffic?
6. Who has priority if the lights should fail?
7. What type of traffic control lights may you find near a fire station?
